

A photograph of a baby lying on a white surface, holding a teal stethoscope. The baby's hand is gripping the handle of the stethoscope, and the chest piece is resting on the surface. The background is a soft, out-of-focus white.

*Thank You!*

You  
Helped  
Save a  
Life!

**YOU** made a difference in the life of a family. One of your patients was recently diagnosed with a condition found by newborn screening. Because of your team's work - educating the family on the importance of newborn screening, collecting the specimen, accurately filling out the card, and quickly sending it to MDH - this child has a much better chance at a healthy life.

Thank you for making a difference!
